

## Testimonial

January 7, 2016

Dear Infinite Scholars,

I just sent my son back to college for the second semester of his sophomore year!! I have to say a million thanks to Mr. Ousley for everything he did to put my son and his academic credentials out there for hundreds of colleges and universities to see! My son, Korey Criggler, scored a 30 on the ACT on his first attempt and when I told Mr. Ousley about his score, he simply said "watch this"! And within minutes, I had emails from colleges and universities, from all over the country interested in my son attending their school!

My son chose the prestigious, Tuskegee University, in Tuskegee, Alabama and we couldn't be more pleased! He's living in the boys honors dorm and is doing an excellent job with his studies! He's majoring in Computer Science and so far, so good!

It was a blessing to cross paths with Infinite Scholars and my family and I are forever grateful!!! Now, we're looking for that perfect internship match!!

Thanks again!!
